# TIME TO DECORATE!

Trace the lines to help decorate the Christmas trees!

A series of six rows for tracing. Each row starts with a different Christmas ornament on the left and ends with a Christmas tree on the right. A dashed line connects the ornament to the tree, forming a path for tracing. The paths are: 1) A red ornament with a floral pattern connected to a tree by a path of three loops. 2) A red ornament with white snowflakes connected to a tree by a path of three wavy lines. 3) A pink ornament with a white snowflake connected to a tree by a path of a zig-zag line. 4) A green ornament with a white snowflake connected to a tree by a path of a wavy line. 5) A teal ornament connected to a tree by a path of a wavy line. 6) A yellow ornament with red patterns connected to a tree by a path of a zig-zag line.
