Name_____ Date:_____

Groundhog's day

Is a popular North American tradition observed in the United States and Canada on February 2. If the groundhog emerges from its burrow on this day and sees its shadow, it will retreat to its den, and winter will continue for six more weeks. If the groundhog does not see its shadow, spring will arrive early.

Let's take a vote:
Please predict if the groundhog will see its shadow or not.

Shadow

No Shadow
